

Rosebery School Sixth Form

Monday 12 July

Dear all

Well what an action-packed week to finish Sixth Form teaching! With my in-laws' Italian roots and then letting my daughter stay up for the semi-final, you can understand that Sunday is going to be interesting

Regardless of your view on sport, and football in particular, it becomes a national event when teams or individuals do so well. I also think reading and listening to Gareth Southgate is a learning experience for most of us. In terms of motivation, resilience, and leadership.

But then for us in school we have put our best feet forwards and welcomed those in Year 11 who could make it. My thanks to all the teachers who ran subject sessions. As well as the whole of Year 12 for helping the new intake understand that they'll be very welcome in the common room ... 😊

But then today happened!

What a fabulous way to end the year after such turmoil and disruption. The rounders today was much needed and extremely well attended. After fearing it was going to be two staff vs all of Year 12 the numbers grew, and I reckon we played a pretty good hand.

Of course, the scores finished neck and neck and, you know what, we'll just have to have a deciding match next year.

Good luck on work experience, university courses and other enrichment activities next week. I will be in touch as the School's year finishes with one final bulletin to keep you occupied and informed over the summer.

Look after yourselves.

Have a lovely weekend.

Mr Phillips

General Notices

Year 12

Work Experience

Many thanks to all of you who have been in contact with Mrs Keaveney regarding work experience week. If you haven't secured any work experience then you should be using the time to complete remote university visits, talks, or complete any other educational activities. You will be welcome to help with sports day on Tuesday 13 July. If you need resources on site then you are welcome to come in, but please ensure that you let us know and sign in on the day.

For those who have got a face-to-face work experience can you please ensure the relevant paperwork is handed in before the placement commences.

Careers and HE Resources from Mrs Keaveney

L3 Engineering Fitter Apprentice

Leybold are currently looking for a L3 Engineering Fitter apprentice to work at their UK Leybold workshop in Chessington, at Silverglade Business Park.

This is an exciting role working for a leading provider in vacuum solutions – Leybold is also part of the Atlas Copco group so there is real potential for someone to build a long-lasting and fulfilling career with a global international business.

They are ideally looking for GCSE candidates who will achieve four GCSE grades at Level 4 including maths, English and a science.

Attached is the job specification and a link below where students can apply.

Apprentice Software Support Engineer

BridgeHead is a company located in Ashted who are currently looking to recruit a new member into their team to fill a new role of Apprentice Software Support Engineer, who will become a member of the development team with a specific emphasis on providing the first point of contact for customer issues in their HealthStore product.

The aim is for them to gain an expert understanding of the product at both the user and the source code level. As such, this role will involve a substantial amount of software engineering and is likely to lead to a move into mainline software development. A job description is attached to this newsletter for further information.

They currently have a degree apprentice in their test team who is studying at London South Bank University and they intend to use the LSBU course for this new member of staff as well. The new person will also receive internal training and support on the product and the development processes.

If you are interested in this position, please let Mrs Keaveney know who will put you in touch with their manager.
